Crane operation at Forth George

The Belize Department of Civil Aviation (BDCA) informs the aviation public that effective immediately until April 23rd, 2027, a tower crane, with a height of 145ft, will be operating in the Fort George area of Belize District, with coordinate 17°29'37"N 088°10'55"W.

The proposed location of the tower crane is approximately 10,126 feet away from the centre of the runway at the Sir Barry Bowen Municipal Airstrip and falls within the limits of the outer horizontal surface (Figure 1).

The general aviation public is asked to exercise caution.

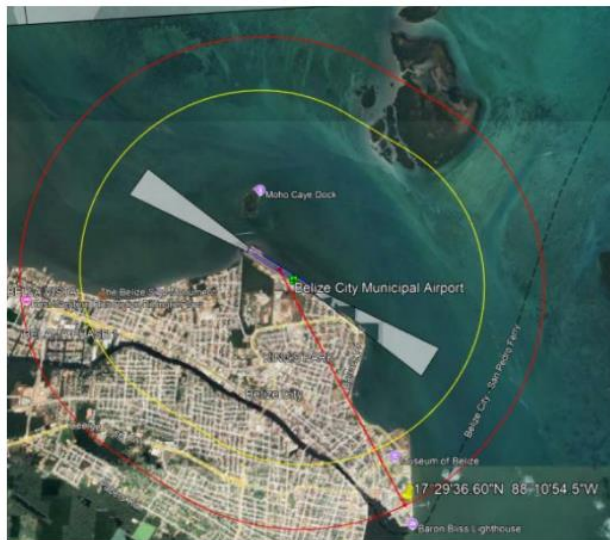

Figure 1: Distance between proposed tower - located within the outer horizontal surface of the aerodrome - and the Sir Barry Bowen Municipal Airstrip at 10,126 feet as measured in Google Earth Pro.
