C014/25
27th November 2025

Extension of Consultation Period of the Unmanned Aircraft Systems
Operational Directive

This Aeronautical Information Circular (AIC) notifies all stakeholders that the consultation period for the Operational Directive pertaining to Unmanned Aircraft Systems (UAS), originally announced in AIC No. C008/25, has been extended by 30 days effective 27 November 2025.

The Belize Department of Civil Aviation (BDCA) invites industry participants to thoroughly review the draft Operational Directive and submit their comments or recommendations via the designated communication channels. Please note that submissions received after the consultation period may not be considered. The draft document can be accessed and downloaded from the Department's website at:

[Operational Directives \(OD\) | Belize Department of Civil Aviation](#)

All feedback submitted during the extended consultation period will be carefully evaluated and, where relevant, reflected in the finalized directive. A summary of substantive input and any consequential amendments will be published upon completion of the directive.
