ENROUTE OBSTACLE (TELECOMMUNICATIONS TOWER)

Please be informed that a telecommunications tower is being erected in Las Flores Village, Belmopan and is almost directly south of the Hector Silva Airstrip.

Particulars of this self -supporting obstacle are:

- (d) **Name:** INTELCO Tower #3
- (e) **Latitude and Longitude:** 17° 13' 38' N 088° 46' 12' W
(GPS Readings)
- (c) **Geographical Position:** At Las Flores area, Belmopan
- (d) **Height:** 330 feet (100 metres) AGL
- (e) **Markings:** Painted throughout its height with
alternating orange and white bands. (aviation colours)
- (f) **Lightings:** Steady red obstructions lights, H24

Pilots are advised to be alert when operating in abovementioned area, especially when operating at the Hector Silva Airstrip, Belmopan.

Also, military helicopters are strongly cautioned to be on the alert when operating at any helicopter landing sites in the Belmopan area.

Please take note that the abovementioned Project is expected to be fully completed by 3rd October, 2002.
